

KARLKA FENCEWRIGHT
ENVIRONMENTAL POLICY

Senior Management of Karlka FenceWright are committed to managing and undertaking, manufacturing and installation operations in an environmentally responsible manner. They are committed to providing practical environmental care and strive to ensure all negative environmental impacts are avoided or mitigated.

The ability to maintain responsible environmental practice through the use of ethical principles is an essential part of the quality of Karlka FenceWright workmanship.

This includes.

- Conducting operations in compliance with local environmental legislation, regulations, standards, and licences.
- Setting goals and reviewing environmental objectives and performance.
- Preventing pollution and achieving continual improvement of environmental performance.
- Communication of our Environmental Policy with the team, contractors, and the community.
- Education of team members and contractors to ensure environmental responsibility is integrated into work practices, training, and decision making.
- Using resources efficiently and minimising waste and emissions.

Environmental management is everyone's responsibility, and this can be best achieved through cooperative efforts of employees.

The success of this Environmental Policy relies on environmental awareness and diligence being applied to our actions.

Good environmental management will be reinforced through.

- Continually identifying, assessing, and controlling possible risks to the environment as a result of Karlka FenceWright activities.
- The provision of information concerning environmental risks and the promotion, instruction, training, and supervision of employees to ensure minimal impact on the environment.
